Frequency Tables Homework

1) Calculate the mean shoe size:

Shoe Size	Frequency
3	8
4	13
5	9
6	10

2) Calculate the:

a) Modal Class

b) Median Class

c) Lower bound of the range:

Age	Frequency
$10 \leq x < 20$	12
$20 \leq x < 30$	7
$30 \leq x < 40$	9
$40 \leq x < 50$	3

3) Estimate the mean age:

Age	Frequency
$10 \leq x < 20$	12
$20 \leq x < 30$	7
$30 \leq x < 40$	9
$40 \leq x < 50$	3

4) The estimated mean = 12.03, find a:

Wins	Frequency
$0 \leq x < 5$	6
$5 \leq x < 10$	a
$10 \leq x < 15$	5
$15 \leq x < 20$	9
$20 \leq x < 25$	4
